Course Descriptions

Band (Full Year): Make music magic! Dive into the world of music and discover your hidden talents on an instrument—whether it's a trumpet, flute, saxophone, or even the drums! No experience required! Learn the tricks of the trade, develop your skills, and play in a band, jamming with other students to create awesome sounds. Whether you're into brass, woodwinds, or percussion, you'll master the techniques to play like a pro. Plus, you'll get the chance to show off your musical skills at events, assemblies, and even festivals or trips. Independent practice is key, so get ready to rock out and level up your playing. If you're passionate about music and want to be part of something bigger, this class is for you! There is a fee associated with this course.

French (Full Year): Embark on a journey to learn French! This exciting adventure blends creativity, culture, and connection. From exploring art and drama to savoring delicious food and discovering design, the possibilities are endless. Imagine immersing yourself in the French language as you read, write, and speak with confidence! This course is all about making French come alive through hands-on projects, engaging visuals, fun games, and lively conversations—perfectly tailored for travel enthusiasts and curious minds alike. Join us as we unlock the beauty of French, one exciting topic at a time!

Art: Step into the world of creativity with this hands-on, project-based visual arts course! Designed to introduce and expand your understanding of the basics of art, you'll have the chance to experiment with a variety of exciting mediums, creating artwork that not only looks stunning but also demonstrates technical skill. Dive deep into the elements of art and principles of design, all while discovering fresh ways to express your unique vision. As you develop your artistic abilities and gain confidence, you'll gain a newfound appreciation for the beauty of art. Ready to unleash your inner artist? Note: A small fee is required for materials, but the experience is priceless!

Broadcasting: It's your time to shine! In this exciting class step behind and in front of the camera to explore the world of media and content creation. From traditional broadcasting like radio and news reports to modern platforms like podcasts, YouTube, and social media influencing—you'll learn how to create content that grabs attention and tells a story. Try your hand at scripting, filming, editing, and even hosting your own segments. Whether you dream of being a YouTuber, a podcast host, a news anchor, or a digital media pro, this class gives you the tools to make it happen. Get ready to speak up, stand out, and broadcast your voice to the world!

Power Up: Level up your learning! This class is the perfect opportunity for students who want extra support in reaching their academic goals! Whether you're looking to strengthen your focus or need a bit more time to complete assignments, this course is designed to help you succeed. You'll discover how to harness your personal learning strengths and preferences, making your study sessions more effective and enjoyable. Through small group and individual instruction, you'll master strategies tailored just for you—everything from improving organizational skills to boosting your numeracy and literacy. Get ready to take your learning to the next level with confidence and a deeper understanding of your own potential!

Foods: Come hungry and ready to create! This course is as delicious as it is educational! In this exciting and flavorful journey, we'll dive into the world of food—not just how we eat it, but how we grow it, appreciate it, plan it, and, of course, cook it! In Foods, students will collaborate in teams to explore a wide range of recipes and sharpen their culinary skills hands-on. From mouthwatering appetizers to decadent desserts, hearty soups to fresh salads, satisfying entrées to energizing breakfasts—you'll learn to create dishes that delight the palate and nourish the body. Along the way, you'll master essential kitchen techniques, gain insight into nutrition and meal planning, and develop a true appreciation for the beauty and complexity of food. A course fee applies to cover ingredients and supplies.

Photography: See the world through a new lens! In Photography, you'll explore how to turn everyday moments into awesome images using real photography techniques. You'll learn how to use a camera, play with lighting and angles, and discover different styles of photography—from action shots to cool portraits. But it doesn't stop there! You'll also get to dive into digital editing and bring your creative ideas to life by turning your photos into amazing finished pieces. Whether you're snapping pics of your friends, nature, or something totally wild from your imagination, this class will help you level up your skills and have fun doing it. Your photo adventure starts here!

Computer Science: Build, code, and bring robots to life! Ever wondered what it's like to control a robot—or build one yourself? In this hands-on, action-packed course, you'll get to experiment with awesome tech like LEGO Mindstorms, Ozobots, Arduino

Micro Bits, Sphero, and more! Whether you're a total beginner or already love coding, this class has something for everyone. You'll explore the basics of computer programming while designing, building, and programming robots to move, light up, make sounds, and even complete cool challenges. The best part? You get to learn at your own pace, with tons of freedom to be creative and think outside the box.

Construction: Design it, build it, make it yours! Do you like designing & making stuff with your hands? Interested in learning how? Come join us as we build projects starting with an idea, turning it into a design on paper & then turning it into reality using a variety of hand & power tools. Safety is of utmost importance in this course as you will be learning how to use shop equipment, but prior experience is not required. There is a fee associated with this course. There is a fee associated with this course.

Design Studies: Design your world! Have you ever dreamed of designing a cool building, creating your own invention, or planning an epic backyard space? In this creative and hands-on course, you'll explore what it's like to be an architect, engineer, interior designer, and more! From sketching your ideas to developing real plans, you'll learn how the design process works from start to finish. Whether you're imagining the next big skyscraper, a new product, or an awesome room makeover, this class is your chance to turn big ideas into bold designs. There is a fee associated with this course.

DJing: Ready to be the life of the party? In this hands-on DJ course, you'll learn how to mix music like a pro and keep the energy high—whether you're rocking a school dance, livestreaming to your friends, or dreaming of playing Coachella someday! You'll get to explore the history of DJing and try out the same gear used by real wedding, radio, and touring DJs. Best part? You can mix *any* kind of music you love—Pop, Hip Hop, EDM, Indie, House, Techno—you name it. No experience needed, just bring your passion for music and get ready to drop the beat!

Drama/Theatre: Lights, camera, action! In this drama class, you'll become different characters, create your own scenes, and have a blast playing fun improv and acting games. Whether you're a natural performer or just curious to try something new, this class will help you build confidence, creativity, and drama skills while having a ton of fun. From reader's theatre to scene building and improv, every day brings something exciting. Ready to act, laugh, and maybe even surprise yourself? Then this is the class for you! There is a fee associated with this course.

Tourism: Pack your (imaginary) bags—adventure awaits! In this exciting tourism class, you'll explore some of the world's coolest destinations, from tropical beaches to bustling cities and hidden wonders. Discover how tourism shapes cultures, helps economies, and connects people across the globe. You'll get to plan dream vacations, learn fun travel tips, and dive into what it takes to be a travel pro. If you've got a curious mind and a love for adventure, this class is your passport to fun!

Enterprise & Innovation: Got big ideas? Turn them into reality! In this Enterprise & Innovation class, you'll step into the shoes of a young entrepreneur and learn how to create your own business from the ground up. Explore the exciting world of marketing, money management, and team leadership. From brainstorming awesome product ideas to figuring out how to sell them and make a profit, this class is all about creativity, strategy, and real-world skills. Whether you dream of launching a brand or just love thinking outside the box—this is your chance to shine!

Guitar: Ready to rock? Start your guitar journey here! This beginner-friendly class is perfect if you've never picked up a guitar but always wanted to play. You'll learn how to strum your favorite songs, create your own music, and even understand how guitar legends do their thing. From learning chords and riffs to reading music and writing your own tunes, you'll be jamming in no time! Whether you're into rock, pop, indie, or country—this is your chance to learn, play, and sound amazing! There is a fee associated with this course. There is a fee associated with this course.

Fashion: Calling all fashionistas! Love clothes, style, or creating your own look? In this fun and hands-on fashion class, you'll get to bring your ideas to life! Learn how to sew by hand and with a machine, work with different fabrics, and design cool garments and accessories that show off your personal flair. You'll get to experiment with tools, sketch your own designs, and create projects that are totally *you*. No experience needed—just a passion for fashion and a creative spirit! Everyone works at their own pace, and you'll even get to complete a big final project based on

your skills. Most materials are included, but if you want something extra special, you can bring your own. Ready to stitch, style, and shine? There is a fee associated with this course.

Leadership: Step up, speak out, and make a real impact in your school and beyond. Plan fun activities, work on team projects, and help build a positive vibe in your school community. Discovering what leadership really means—it's not just about being in charge, it's also about listening, helping others, and working together. Through hands-on challenges and real-life projects, you'll build confidence, learn how to lead (and follow), and see how even small actions can make a big difference. If you're ready to learn, lead, and level up—this is your time!

Outdoor Education: Ready for adventure? Through the lens of Indigenous ways of knowing, being, doing, and belonging get outside, try new things, and learn real-life skills you'll actually use. Explore nature, go on awesome trips, and engage in hands-on projects that help you understand the environment and our impact. Whether you're into hiking, camping, survival skills, or just love being outside, this class is packed with fun, fresh air, and adventure. Plus, you'll build leadership skills and work with a team to tackle outdoor challenges. Get ready to learn, explore, and connect with nature like never before! There is a fee associated with this course.

Training for Excellence: Train like a pro and unlock your full potential! Level up your athletic skills by focusing on more than just the game—you'll also train your mind and fuel your body! Whether you're looking to dominate your favorite sport or simply want to get faster, stronger, and more focused, this class has it all. You'll learn pro tips and techniques to improve your performance, boost your mental toughness, and stay motivated. Plus, we'll dive into how what you eat affects your energy and performance on the field. Get ready for high-energy workouts, fun drills, and challenges that will push you to be the best you can be—physically, mentally, and nutritionally. If you're ready to crush your goals and take your game to the next level, this class is for you!

World History: Ready to travel through time and explore the world's greatest civilizations? In this class, you'll uncover the secrets of ancient cultures, discover how world-changing ideas shaped our world, and explore the roots of today's cultural, political, and ethnic diversity. You'll dive into history like never before, learning about the powerful empires, famous leaders, and epic events that have shaped modern society. This course will challenge you to think like a historian, analyze the past, and make connections to the world we live in today. If you love stories, adventure, and learning about how everything fits together, this class will take you on an unforgettable journey through history!

Technical Theatre: Ever wondered how your favorite movie or stage characters come to life? In this course, you'll step behind the scenes and become the artist! You'll get hands-on with awesome makeup techniques—like creating bold stage looks, transforming someone to look decades older, or even designing creatures that are part-human, part-animal. You'll also explore how to build realistic fake wounds (yes, the kind that look super gross in the coolest way), work with prosthetics, and design your own masks from scratch. It's creativity, transformation, and a little bit of movie magic—all in one class! There is a fee associated with this course.
